SKILLS SUMMARY

- Cloud Engineering & Infrastructure Management
- Data Engineering & Machine Learning Integration
- Geospatial Data Analysis & Visualization
- Software & Tool Development
- Project Management
- Staff Training & Leadership

AWARDS RECEIVED

🔖 Won 2nd place at the 2018 ADAPTATÓN Climate Change Hackathon in Trujillo, Peru, for developing an app that provides alternative routes during flooding crises.

🔖 Won 1st place in the Degree Thesis category at the 2013 National External Trade and Tourism Competition in Peru, organized by MINCETUR.

🔖 Award in merit to the good academic performance - BEST STUDENT OF THE PROFESSIONAL TRAINING SCHOOL OF ENGINEERING OF SYSTEMS, Awarded by the National University of San Cristóbal de Huamanga.

PERSONAL PROFILE

Hi, I am a Cloud and Data Engineer specializing in managing and processing large geospatial datasets for machine learning and GIS applications. I build scalable cloud infrastructures using Kubernetes and develop tools and pipelines for efficient data processing.

WORK EXPERIENCE

Cloud & Data Engineer
GeoCompas | January 2024 - Present

- Managing Kubernetes Clusters
- Machine learning model integrations

Data Engineer & Data Team Lead
Development Seed | January 2018 - January 2024

- Python and Node.js developer
- Data Generation for Machine Learning
- Tool Creation and Improvement for Fast and Quality Annotation

Data Engineer
Mapbox | January 2012 - January 2018

- Team Management
- Data Analysis and Validation using Python
- Web Tools for data Analysis
